

BSA / AML Playbook

Sharpen the SAR. Tighten CDD. Lose the noise.

Use AI to triage alerts, summarize SAR narratives, and document CDD baselines — without ever putting customer data into a model.

PLAYBOOK SNAPSHOT

BSA / AML Enablement Map

Primary Goal

Sharper SAR

Core Artifact

SAR narrative

Risk Focus

Customer data

Narrative quality

50/100

Pattern recognition

68/100

Documentation discipline

60/100

Data boundary discipline

78/100

Recommended path

Maturity Assessment → Foundation Course → SAR Workflow → Sandbox

USE-CASE MAP

Where BSA / AML can use AiBI immediately.

Concrete, role-specific use cases replace generic AI advice.

HIGH RISK

Draft a SAR narrative

Convert a typology + timeline into the structured narrative the FinCEN reviewer expects.

Artifact

SAR narrative draft

MED RISK

Triage alerts

Run the alert rationale through a structured pattern check to prioritize review.

Artifact

Alert triage notes

MED RISK

Document CDD baseline drift

Compare current CDD against the baseline; flag changes that need an updated profile.

Artifact

CDD drift report

HIGH RISK

Summarize a structuring pattern

Turn raw transaction notes into a clean pattern description for the case file.

Artifact

Pattern summary

BSA OPERATING MODEL

A documented rhythm that reviewers can follow.

01

Pattern

Identify the typology and the timeline window before any AI involvement.

Artifact produced

Pattern brief

02

Sanitize

Strip identifiers, amounts, account numbers — only typology + dates + relative amounts go to the model.

Artifact produced

Sanitized brief

03

Draft

Generate the narrative in the sandbox. Compare against your team's SAR template structure.

Artifact produced

Draft narrative

04

Review

Re-attach customer data manually in the SAR system. Reviewer signs off.

Artifact produced

Filed SAR with review log

REVIEW CHECKLIST

Before AI output is used.

No real customer or transaction identifiers in any prompt

TOOLBOX ASSETS

The playbook ships real tools.

A strong role playbook ends with downloadable, customizable work products — not slides.

BSA / AML PLAYBOOK

Make the SAR sharper. Keep the customer data out of the model.

The fastest narratives are the ones you do not have to rewrite. This playbook is built around that.
