

THE FRONTLINE AI ENABLEMENT KIT

Start here.

Desk cards, prompts, and manager tools for safer branch and contact-center AI use.

Inside this kit

For branch managers, contact-center leaders, training teams, and frontline staff who need to reduce typing, improve follow-up, coach faster, and protect customer data without turning AI into the banker.

1. **01-Frontline-Data-Handling-Card.pdf**

Desk boundary card for what frontline teams can and cannot put into AI tools.

2. **02-Before-You-Paste-Safe-AI-Checklist.pdf**

The four staff habits: strip sensitive data, ask clearly, fact-check, and escalate risky decisions.

3. **03-Prompt-Strategy-Cheat-Sheet.pdf**

Prompt pattern for safe, useful, reviewable AI output.

4. **04-Retail-Branch-Manager-Guide.pdf**

Manager guide for choosing, reviewing, and scaling frontline AI workflows.

5. **05-Branch-Style-Brief-Template.docx**

Editable branch tone, phrase, empathy, escalation, and compliance reminder template.

6. **06-First-Draft-Reply-Library.docx**

Editable starter patterns for document requests, appointment follow-ups, service recovery, status updates, branch closures, card delays, and check-hold explanations.

7. **07-Procedure-to-Job-Aid-Prompt.docx**

Prompt template for turning approved procedures into frontline job aids without inventing policy.

8. **08-Branch-Coaching-Scenario-Pack.docx**

Fictional coaching scenarios by difficulty level with manager questions and escalation prompts.

9. **09-Customer-Voice-Report-Template.docx**

Template for de-identified complaint themes, FAQ clusters, branch friction, and call-center patterns.

10. **10-Retail-AI-Evidence-Packet.docx**

Evidence packet for use case, approved prompt, data class, output, reviewer, final version, retention location, and metric.

11. **11-30-Day-Frontline-Rollout-Tracker.xlsx**

Editable manager tracker for data boundary, first-draft replies, coaching scenarios, customer-signal reporting, and scale decision.

How to use this kit

1. Give every teammate the Frontline Data Handling Card.
2. Train the four Before-You-Paste Safe AI habits.
3. Use the Prompt Strategy Cheat Sheet for first drafts and [VERIFY] checks.
4. Managers use the Retail Branch Manager Guide to pick one frontline workflow.
5. Save approved prompts, outputs, reviews, and rollout decisions into the branch toolkit.
