PLAYBOOK SNAPSHOT

Compliance AI Enablement Map

Primary Goal

Safe adoption

Core Artifact

Workflow SOP

Risk Focus

Data + review

Governance clarity

72/100

Workflow documentation

46/100

Data handling judgment

58/100

Human review discipline

64/100

Recommended path

Maturity Assessment → Foundation Course → Workflow SOP → Sandbox Review

USE-CASE MAP

Where compliance can use AiBI immediately.

Concrete, role-specific use cases replace generic AI advice.

MED RISK

Document an AI-assisted workflow

Turns informal AI use into a reviewable operating procedure.

Artifact

Examiner-ready workflow SOP

HIGH RISK

Review a proposed AI use case

Creates a consistent screen before teams adopt AI for real work.

Artifact

AI use-case risk checklist

MED RISK

Summarize regulatory guidance

Helps staff understand guidance faster while preserving human review.

Artifact

Plain-English guidance brief

LOW RISK

Create a human review checklist

Makes accuracy, data handling, and approval expectations explicit.

Artifact

Output review checklist

COMPLIANCE OPERATING MODEL

Move from ad hoc AI use to governed adoption.

01

Intake

Capture the business purpose, tool, user role, and data involved before anyone operationalizes the idea.

Artifact produced

Use-case intake form

02

Risk Triage

Classify the use case by customer impact, data sensitivity, automation level, and review needs.

Artifact produced

Risk tier + review path

03

Controlled Practice

Test the workflow in the sandbox using fictional or sanitized data before using it for real work.

Artifact produced

Sandbox output + notes

04

Approval & Evidence

Document the final workflow, approval owner, retention rule, and human review expectations.

Artifact produced

Approved workflow packet

REVIEW CHECKLIST

Before AI output is used.

No customer data entered into public AI tools

TOOLBOX ASSETS

The playbook ships real tools.

A strong role playbook ends with downloadable, customizable work products — not slides.

COMPLIANCE OFFICER PLAYBOOK

Make compliance the partner that helps AI adoption happen.

Stop being the team that says "wait." Become the team that says "here is the workflow we already documented for that."
